

HYGIENE

VISIT SAFE

Under the section VISIT SAFE, all measures ensuring that all trade fair participants can move securely around the entire exhibition grounds are summarised. With CH3CK for a safe visit to the trade fair, everyone on the trade fair grounds is either vaccinated against Covid, recovered or tested.

This includes comprehensive hygiene provisions such as:

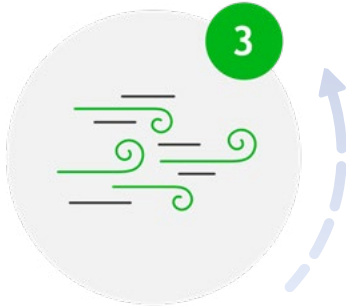

DISINFECTION AND CLEANING

We will place disinfectant dispensers at all essential points throughout the premises. Regularly touched surfaces (e.g. counters, tables, handrails) will be cleaned more frequently.

MEDICAL MOUTH NOSE PROTECTION

For the protection of all trade fair participants everyone on the trade fair grounds is obliged to wear medical mouth nose protection. The only exception are seating areas, e.g. at exhibition stands or at places providing food. For those who do not have their own masks, we will provide mouth and nose protection.

SUFFICIENT VENTILATION

Our exhibition space is equipped with modern ventilation systems that allow for separate exhaust air and outgoing exhaust air control.

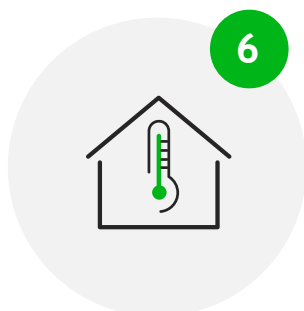

HYGIENE IN SANITARY FACILITIES

Our sanitary facilities will be cleaned at frequent intervals. We will ensure the minimum distance for hand washing and disinfection facilities.

CONTACT-FREE PATHS ON THE TRADE FAIR GROUNDS

All door systems except fire doors remain permanently open to reduce contact with surfaces.

STAY AT HOME IF YOU ARE ILL

You have no permission to enter the trade fair grounds with symptoms of illness such as cough, fever, cold, sore throat, general weakness, diarrhoea, odour and taste disturbance!

RKI-CORONA-APP
Please use the RKI-Corona-App, which warns you if you have come into contact with people who have tested positive.
